

Dear Friends, Family and Neighbors:

Over the past few years the horrific stories of human trafficking both globally and domestically have been shared in the news and on social media sites. It burdens me to hear about such stories and the innocence that is ripped away from being caught in the grip of this industry. The pain that these victims and survivors deal with on a daily basis must be incredible.

So I decided I wanted to spread the word and raise money for Safe House Project, a place that places survivors of human trafficking into safe homes. To learn more visit their website at safehouseproject.org.

I am doing this event: [place event info here with event name, description, date and time, and how to donate, pay entry fee, sponsor someone, etc.](#)

Thank you for investing in someone's life. I am planning to raise (goal amount). Please consider participating [in my event *insert event details*](#) or by donating \$5, \$10, \$25, \$50, \$100 or more to this worthy and critical organization. Thank you for however it is you choose to support me.
